

Library Resource Tool (LRT)

Basic Procedure

The Library Resource Tool must be visible to students in order for them to access the Electronic Course Reserve materials for your class. The default UConn template for HuskyCT sites has a link to this tool on the Course Materials page. If you cannot see the link when in Student View, follow the instructions below.

- Option 1. [Unhide the link](#) (use this option if can see "(hidden)" next to Library Resources link)
- Option 2. [Re-add the link](#) (use this option if do not see a link to tool)
- Option 3. [Create and add the link](#) (use this option for site that never had tool added)

Detailed Instructions

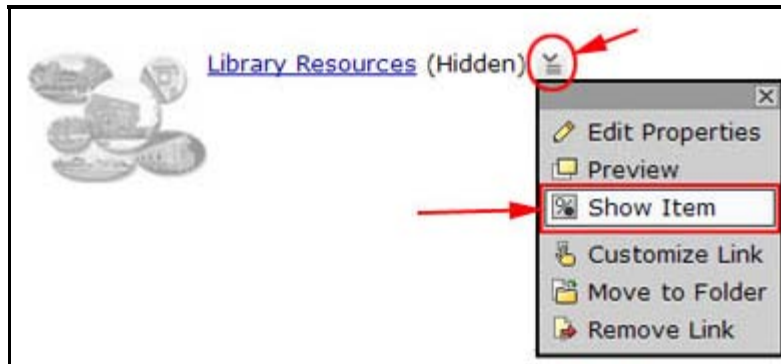

Option 1: Unhide the link to the Library Resource Tool

Be sure you are in Build Tab view

Click the gray menu arrow next to the "Library Resources" link and choose option to "Show item"

NOTE: check that the link is now visible from Student View tab

Option 2: Re-add the link to the Library Resource Tool

Be sure you are in Build Tab view

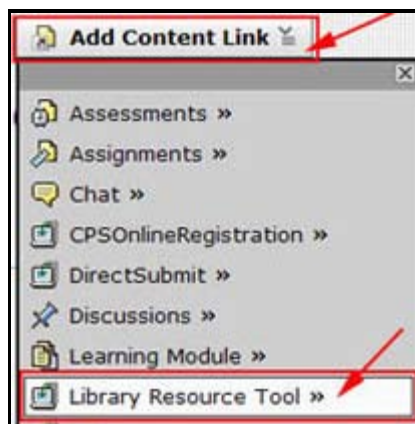

Click "Add Content Link" at top of page

(Either Home Page, Course Materials page, or another Folder Page)

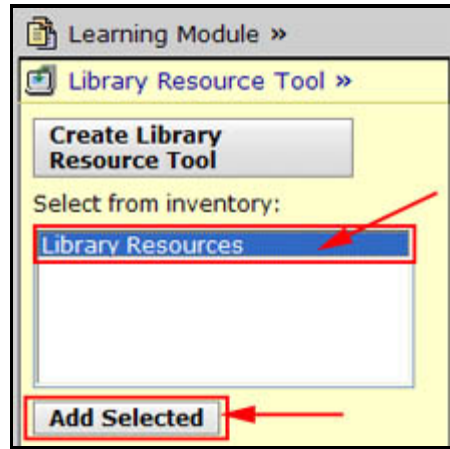

Click on "Library Resource Tool"

Choose "Library Resources" from the inventory box and click "Add Selected" button

Note: if nothing appears in inventory box, follow the instructions in option 3 below

Option 3: Create the Library Resource Tool and add the link

Be sure you are in Build Tab view

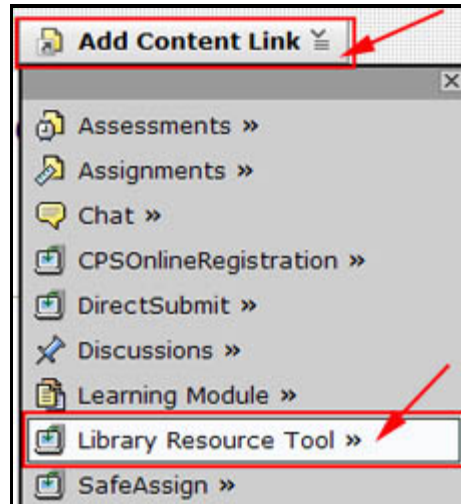

Click "Add Content Link" at top of page

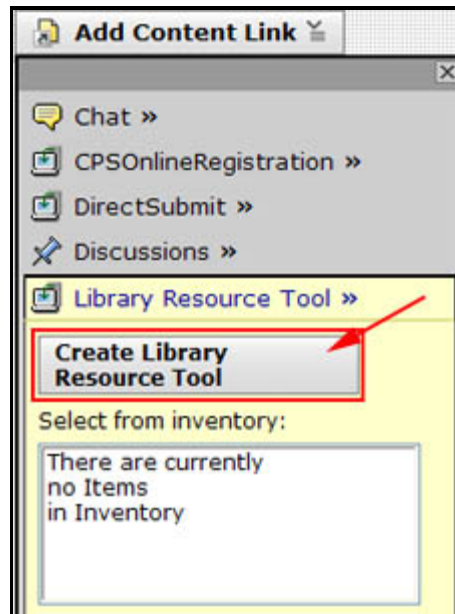

(Either Home Page, Course Materials page, or another Folder Page)

Click on "Library Resource Tool"

Click on "Create Library Resource Tool" button

Enter a name for the link to the Library Resource Tool in the Title box

Note: in the default UConn HuskyCT template the title "Library Resources" has been used.

Click Save

Create Library Resource Tool

* Title: **Enter a name for the link to the tool**

Settings:
